SUMMARY

Highly motivated Computer Science student with proven experience in full-stack development, proficient in Vue.js and .Net Core. Skilled in robust API integration and effective backend data handling. Dedicated to break down complex problems into smaller parts and find clear, effective solutions leveraging technical expertise to deliver results and successfully maintaining critical legacy systems.

WORK EXPERIENCE

.Net Developer, Silicon Soft & IT Consultant Pvt Ltd (June 2025 - Present)

- Maintained and upgraded a legacy Ayurvedic reporting system, ensuring data integrity and reliable service for critical operations.
- Optimized database queries and backend processes, which decreased report generation time for end-users.
- Collaborated closely with cross-functional development teams, enhancing overall project success and workflow.

Vue JS Developer, Futech Solution Pvt Ltd (Feb 2025 - April 2025)

- Collaborated with back-end team members to define API contracts and data structure, ensuring efficient data fetching and minimal load times.
- Specialized in fetching and displaying backend data to create dynamic and responsive User Interfaces (UIs) across multiple screen sizes.
- Utilized Vue Router for robust client-side routing, enabling the creation of a seamless Single Page Application (SPA) experience.

EDUCATION

Bachelor of Computer Science 2023-2025
University of Wolverhampton

Key Project: Blockchain-Based Voting System

- Designed and developed a secure, decentralized digital voting application demonstrating proficiency in blockchain concepts.

HIGHER SECONDARY, SCIENCE 2022-2023
SANN international College

- Cultivated a strong analytical foundation in Mathematics and Physics, complemented by initial exposure to Programming and Problem solving principles.

ADDITIONAL INFORMATION

- Programming/Frameworks:** .Net Core, Vue.js, JavaScript, HTML5, CSS3, Python
- Languages:** English, Nepali
- Development Tools:** Git, Agile/Scrum, Figma
- Core Concepts:** Database Management, Algorithm Design, Blockchain
